

# TOP 10 WAYS FOR PROGRAM DIRECTORS TO USE THE NEUROLOGY RESIDENT & FELLOW SECTION (R&FS)

Victoria S.S. Wong, MD, and John J. Millichap, MD

Visit the Resident & Fellow Section website at <http://neurology.org/site/feature/index.xhtml> to access the features below.

1. Starting this year, every Teaching NeuroImage published will have a supplemental PowerPoint slide set available for download from the Neurology® website that may be used for group presentations.
2. A one-hour resident conference can easily be filled by reviewing a Clinical Reasoning article. The piece is formatted for teaching and has sections with questions for consideration. E-Pearls are ideal for brief educational exercises.
3. Journal Club articles provide critical appraisals of articles published in Neurology. The format is ideal for guiding discussions at your institutional Journal Club meetings.
4. The Career Choices section is a good starting point for residents applying for fellowship positions. In addition to an article about the fellowship search, the Emerging Subspecialties in Neurology section discusses additional avenues for training, and the website provides a link to the AAN Fellowship Directory.
5. The Media and Book Reviews section may provide ideas for what to purchase with book funds. In addition to traditional texts, the R&FS will also review neurology apps and other electronic media.
6. To follow the R&FS on Facebook, join our group entitled 'American Academy of Neurology Residents and Fellows.' For further digital access to R&FS content, download the Neurology app onto your iPad®, listen to the weekly Neurology podcast which includes the E-Pearl of the week, and follow Neurology Twitter for updates.
7. The Right Brain subsection allows you to exercise your right brain by composing your neurological narratives and submitting them.
8. The Education Research section reports quality research on educational topics including surveys of program directors and residents, as well as studies about educational interventions and resident evaluation.
9. Scholarly activity among residents and fellows can be promoted by encouraging them to write for the R&FS. Refer to the 'Call for Authors' page on the website for ideas to jump-start the writing process. Keep in mind that all published articles are considered for the Annual Resident & Fellow Writing Award.
10. Pick up a few more copies of this R&FS Highlights book and help to spread the word! Encourage your trainees to read the R&FS regularly, send us manuscript submissions, and apply for a position on our editorial team during our annual recruitment!

The screenshot displays the Neurology Resident & Fellow Section website. At the top, there is a search bar and navigation links for Home, Browse Topics, WriteClick™, Current Issue, Patients, CME, and Residents & Fellows. The main content area is titled 'Resident & Fellow Section' and features several key announcements and articles:

- Announcing Call for R&F Authors!**: A call to action for authors to submit articles to the section.
- 2013 Resident and Fellow Guide to the Annual Meeting**: A guide for residents and fellows attending the annual meeting.
- Solve the New Mystery Case by February 17**: A challenge for readers to solve a mystery case.
- E-Pearl of the Week**: A featured article titled 'Renal replacement therapy can affect intracranial pressure'. The text discusses how hemodialysis has been implicated in the development of cerebral edema and intracranial hypertension in susceptible patients, and how continuous forms of renal replacement therapy may offer improved hemodynamic stability and more intact autoregulation in conscious patients with acute brain injury.
- Resident & Fellow Section**: A section for news and updates, including 'Learn, Help, Feedback' and 'Get Alerts'.

On the left side, there are navigation menus for 'R&F Resources' (including Complete Archive, About the R&F Section, Resident & Fellow Team, etc.) and 'Subcategories' (including Media and Book Reviews, Career Choices, etc.). At the bottom, there is a footer with the 'R&F' logo and contact information for the Resident & Fellow Editors of Neurology.
